

Healthy Individuals Needed for a Device Study

Purpose: To study why Veterans with post-traumatic stress disorder develop high blood pressure and if a FDA approved TENS-like device can improve future risk of heart disease.

Who is eligible?

- Healthy individuals
- Ages 18-65
- Those WITH PTSD and WITHOUT PTSD

What will I be asked to do?

- 10 study visits over 10 weeks at the Atlanta VA Medical Center and Emory University
- Use of a TENS-like device
- Needles and blood draws

Compensation for time and travel will be provided.
